Nearly three decades ago, Katherine Kyle and Jamison Parker saved the life of the President of the United States, in the process exposing an exceedingly dangerous, powerful shadow organization. The entire episode came at great personal cost and forever changed the trajectory of the couple's lives.

Now at the peak of her career as one of the preeminent novelists of the day, Jay is finally ready to put the past to rest in a fictional treatment...until powerful government forces intervene.

Oscar-winning actress Dara Thomas and her new wife, screenwriter Rebecca Minton, may hold the key to disseminating the truth.

Two of the most visible, formidable power couples in the country stand against the might of a government hell-bent on keeping secrets.

From the hallowed halls of the White House to the glittering streets of Hollywood, this is one adventure for the books.
